Popular Guitars Used by Paul Gilbert:

Ibanez

RG Series (Roadstar Guitar)

****Had used a VERY broad range of Ibanez RG Series models before he obtained his own signature Ibanez series (PGM). So I am still working on building this list up****

PGM Series (Paul Gilbert Signature Model(s)).

1. PGM3
2. PGM30
3. PGM90HAM
4. PGM100
5. PGM100RE
6. PGM200
7. PGM300
8. PGM300RE

9. PGM301
10. PGM400
11. PGM401
12. PGM500
13. PGM600
14. PGM700
15. PGM800
16. PGM900
17. PGM10th
18. PGM90th
19. PGMFRM1
20. PGMFRM2

21. PGMFRM? <-This model has yet to be given a official model number, but HAS been announced by Paul Gilbert/ Ibanez. They said that this model Fireman WILL be a little more affordable by the general public. In other words... the new PGMFRM? Series model will probably cost less than \$6,999.00 that the PGMFRM1 costs haha :). This PGM Fireman model will also feature a reddish body (not sure of what type of wood the body will be just yet) and will also feature Paul Gilbert's newly designed pickups by DiMarzio, the 'Injector' neck and bridge pickups, and will use a Area 67' in the middle position.
